

JEANEILLE AMOAKO

From Bedside to Federal Lab

Active FBI Secret Clearance • CompTIA Security+ • B.S. Cybersecurity

jeaneilleamoako1@gmail.com • 860-964-9191 • Windsor, CT

MY STORY

2019–2022

CNA & Home Health Aide

Direct patient care for medically complex patients across Georgia & New York. Where my commitment to protecting people began.

2022–2023

Cybersecurity Degrees

B.S. in Cybersecurity from Purdue Global. Information Assurance certification from University of Phoenix.

2023

Lawrence Berkeley Lab

Federal cybersecurity intern. Designed phishing simulations and presented findings at a Washington D.C. conference.

2023–Present

Federal & Healthcare Work

Junior Analyst at Maritime ISAC. Healthcare data volunteer at Hartford HealthCare. Active Secret clearance since Jan 2025.

WHAT MAKES ME DIFFERENT

3+ Years

Clinical Background

CNA & HHA caring for medically complex patients. I understand healthcare from the ground up.

DOE Lab

Federal Research

Cybersecurity intern at Lawrence Berkeley National Laboratory — presenting findings in Washington D.C.

ISAC Analyst

Intelligence Work

OSINT threat monitoring for federal SOC teams across maritime, aviation & logistics sectors.

Secret

Active Clearance

FBI Secret clearance active since January 2025 — a rare credential for a healthcare IT professional.

WHAT I'M LOOKING FOR

Full Time Role

Healthcare IT, Security Awareness, Health Informatics, Patient Navigation, or Compliance roles where my unique background adds immediate value.

Shadowing

The chance to learn from experienced professionals in healthcare IT or security awareness — even a few hours would be invaluable.

Internship

Short or long term engagements where I can contribute real work while building hands-on experience in my target field.

LET'S CONNECT

Most people have one of these. I have all of them.

CNA Background • Federal Research • Secret Clearance • Security+
